Ranking Member Gary Peters
Senate Homeland Security and
Governmental Affairs Committee
340 Dirksen Senate Office Building
Washington, DC, 20510

Chairman Paul and Ranking Member Peters:

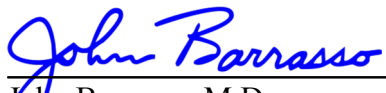

We write you today to encourage the Committee on Homeland Security and Government Affairs to take up zip code legislation that addresses a number of communities in our states. As you know, the United States Postal Service (USPS) has a process to issue unique zip codes for communities, but that process is broken. There are several bills that have been introduced in the House of Representatives and Senate that would direct USPS to issue unique zip codes. We believe these bills can be merged without removing any communities into a consolidated zip code bill to efficiently achieve this objective.

Thank you for your consideration and attention to these zip code bills. We stand by to assist the Committee in this effort.

Sincerely,
